**FOR THE ISLAMIC UNION**

## ASSAM

**DECLARATION OF ISLAMIC COUNTRIES**

**CONFEDERATION– III**

**(19-20<sup>TH</sup> of December 2019)**

### 1. OBJECTIVE

We declare and manifest that in order for the prosperity of the Muslim Nations, safety and survivability of the states which were builded-up by them, establishing and continuation of the peace all around the World, domination of justice and getting out of Islamic World again as a super power on the stage of history, it is required to be gathered under a will for the ISLAMIC COUNTRIES which approves ASIA-AFRICA “ASRICA” Geography as axis, therefore urgently establish “THE PARLIAMENT OF THE ISLAMIC COUNTRIES”, which operates permanently, necessity of the implementation for the ECONOMIC COOPERATION SYSTEM OF THE ISLAMIC COUNTRIES BASED ON THE ISLAMIC ECONOMICS, along with a JOİNT DEFENSE INDUSTRY PRODUCTION, which will enable the Islamic World to reach the economic power it deserves.

### 2. GENERAL

ASSAM recognizes it possible to establish the ISLAMIC UNION by fathering under a single will through a structure of NINE REGIONAL FEDERATIONS based on their ethnical and geographical distances, along with a CONFEDERATIONAL structure comprising of these regional Islamic Federations, without changing the national borders and structures of 61 Islamic Countries within the scope of ASRICA (27 in Asia, 28 in Africa, 4 in Europe and 2 in South America).

Islamic locations, harboring 61 states out of 193 states that are the members of the United Nations Organization (31% of the world population).

**1.85 billion of the world population of 7.63 billion (24% of the entire world population) comprises of the citizens of Muslim Countries, while 30.9 million km<sup>2</sup> of the 150 million km<sup>2</sup> of the world lands are occupied by 61 Islamic Countries (20.6% of the entire lands of world). The ISLAMIC WORLD having 55.5% reserves of the oil, 65% of the petroleum production, possessing 64.1% of the natural gas reserves, 40% of the production of natural gas possesses a geopolitical values that is a candidate to become the super power of future in ASRICA geography by joining under their opportunities, efforts and aims through its geopolitical position, joint civilization values and historical assets (ANNEX-A-B).**

According to the 2019 data, the USA takes first place with 716 billion dollars and China takes second place with 224 billion dollars, while 61 Islamic countries take the third place with 191 billion dollars. Following the Islamic World, the UK ranks fourth with 47.5 Billion Dollars, Russia ranks fifth with 44 Billion Dollars and France ranks sixth with 40.5 billion Dollars. The Islamic World ranks first in the world with 4,707,550 soldiers, 28,760 tanks, 84,063 armored vehicles, 26,184 artillery and 2,577 warships, and second after USA after 10,986 fighter jets and 3,937 helicopters.

When the defense budget, the number of war weapons, tools and equipment are taken into consideration, it is seen that the Islamic World has the potential to be in the top three of the world's superpowers.

### **3. FIELDS OF CENTRAL ACTIVITIES TO BE CARRIED OUT BY ISLAMIC COUNTRIES (ANNEX-C)**

ASSAM envisions the establishment of an Islamic Union rendering the following units responsible:

- a. **For five main fields of activities of ASRICA Islamic Countries Federation, (Ministries of Justice, Defense, Defense Industry, Internal Affairs, Foreign Affairs)**
- b. **For six fields of activities of Regional Islamic Countries Federation, (Ministries of Customs and Trade, Transportation and Maritime Affairs, Economy, Science, Industry and Technology, Development, Culture and Tourism)**
- c. **For ten fields of activities of national states (Ministries of Education, Finance, Energy and Natural Resources, Healthcare, Agriculture and Stockbreeding, Youth and Sports, Forestry and Water Affairs, Labor and Social Security, Social Policies, Environment and Urbanization)**

### **4. ENVISIONING OF ASRICA JOINT DEFENSE INDUSTRY PRODUCTION OF ISLAMIC COUNTRIES**

As in Al-Anfal 60<sup>th</sup> verse in Qoran:

**“Prepare against them whatever you can of [military] power and war-horses, awing thereby the enemy of Allah, and your enemy, and others besides them, whom you do not know, but Allah knows them. And whatever you spend in the way of Allah will be repaid to you in full, and you will not be wronged.”**

The development of warfare industry and technology is encouraged, highlighting the coordinated movement of industrial elements.

In the Cabinet of the Confederation of Islamica States of ASRICA, it is deemed suitable that the Ministry of Defense Industry is one of the five ministries to carry out the activities of identifying the needs of Defense Industry Products, renewing, manufacturing, storing, distributing, maintaining and repairing, modernizing and removing from inventory (ANNEX-D).

**DEFENSE INDUSTRY PRESIDENTIALS must be established in Nine Regional Islamic Countries Federations under the Ministry of Defense Industry within the ASRICA Confederation of Islamic States. Furthermore, under these presidencies, DEFENSE INDUSTRY PRESIDENCES should be established within the National States affiliated to each Federation of Regional Islamic States.**

**The Ministry of Defense Industry of ASRICA CONFEDERATION OF ISLAMIC STATES should allocate the main contractors for the production of Land, Maritime, Air, Air Defense, Space, Cyber and Electronic Defense Industry products to the Federations of the Regional Islamic States. SUB-CONTRACTORS should also be allocated by the Federations of the Regional Islamic States into the National States (related to the Defense Industry Products allocated to them).**

**www.assam.org.tr**

Inventory of defense industry production facilities and heavy industry production systems within the regional federations and national states should be prepared, as well.

Within the scope of Defense Industry Production, R & D, STANDARDIZATION, CERTIFICATION, ACCREDITATION, CODIFICATION and MAINTENANCE REPAIR centers should be established in the Regions of the Main and Subcontractors.

ASRICA Joint Defense Industry Production Support Fund, Joint Space Technology Center and Particle Acceleration Center should be established within the scope of scientific research. In addition, reduction quotas on the basis of customs union should be applied in the use of energy and raw materials required in defense industry production.

Vocational High Schools, Vocational High Schools and Universities should be established for Defense Industry products allocated to Regional Islamic Federations and National States which are assigned as Defense Industry Main and Subcontractors.

Defense Industry Product inventory, Needs identification, Storage and Distribution and Renewal, Modernization, HEK-MAL (Scrap - Debris - Run-down Material), Recycling and Recycling Activities should be managed by the Ministry of Defense Industry.

**5. In order to put an appropriate LEGISLATION MODEL related with “ASRICA Union of Islamic States” before ISLAMIC WORLD:**

- a. Joint Defense System,
- b. Joint Foreign Policy,
- c. Joint Justice System,
- d. Joint Justice and Public Security

We hereby declare that we are committed to planning and implementation of International ASSAM CONGRESSES with MAIN THEME of the elements above.
